Digital Citizenship Plan | 2026-2027

Sundance School

Calgary Board of Education

Digital citizenship is about using technology and participating in digital environments. It is key to helping our students learn to use available technology responsibly in the classroom and beyond. This Digital Citizenship Plan addresses how we work to build a community where we live and work together as digital citizens.

Relevant contextual information about our school and School Development Plan:

- K-6 French Immersion school
- SDP focus on improving student numeracy skills

Relevant evidence and data that informs our Digital Citizenship Plan:

- As early learners, students are new to using digital tools for learning

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
Long term goal #1 **Learners will understand the importance of protecting personal information online and apply appropriate strategies**	**Safe** I know how to protect my personal information online	Short term goal #1Students will understand the characteristics of a strong password and why it is important to have one	Students will create an age-appropriate unique password to access CBE network/technology	Review resources on Digital Citizenship Insite Pages Targeted lessons on creating strong passwords Support from the Teaching and Learning with Technology Specialists as needed	All students in the school will have a unique, secure password to access CBE network/technology

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
		Short term goal #2 Students will understand the importance of keeping their passwords secure and private	Students will create an age-appropriate unique password to access CBE network/technology	Review resources on Digital Citizenship Insite Pages Students will learn how to reset passwords using the Student Account Tool	All students will keep their passwords private and know how to reset their passwords, as needed
Long term goal #2 **Learners will understand the importance of balancing time away from devices.**	**Balanced** I balance time online and offline to promote positive mental, emotional and physical well-being	Short term goal #1 Students will understand the importance of balance time online and offline to promote positive mental, emotional and physical well-being	Students will demonstrate an understanding of how time spent online and using digital devices can affect their well-being, relationships, and daily activities.	Teachers will design learning experiences that develop students' awareness of how digital technology influences their well-being, relationships, and daily routines. Review resources on Digital Citizenship Insite Pages	Students can identify and discuss ways that digital technology affects their well-being, relationships, and daily activities
